UNDERFOOT.**

VenTek™ Drain Mat promotes drainage and ventilation in exterior applications such as below-grade concrete slabs, foundations, courtyards and balconies. The breathable fabric and entangled polymer mesh allow water and moisture to escape while preventing soil or construction debris from infiltrating the drainage plane.

- Promotes moisture drainage and ventilation
- Breathable fabric facilitates moisture release and ventilation
- Entangled polymer mesh shields drainage plane from debris
- High coverage for fast, easy installation

MAXXON®

VenTek™ Drain Mat

SUPERIOR PROTECTION FOR EXTERIOR STRUCTURES

Protect exterior slabs, foundations, courtyards, and balconies from damage caused by water pooling, and moisture buildup with a VenTek™ Drain Mat. This durable composite of breathable fabric and entangled polymer mesh enables air and moisture to flow in multiple directions for superior drainage and ventilation. Easy to apply both horizontally and vertically, the VenTek™ Drain Mat prevents moisture-related issues from compromising exterior structures in multifamily and commercial construction.
